The Libby Dam Project in Libby, Montana utilizes Connect-A-Dock modular floating dock systems to efficiently extend a usable lake front area for public access—boat tie-ups located on the outside, separate pod areas for multiple families to enjoy, and a designated perimeter to safely swim inside.

Total Versatility Combined With Quality

Not just fast and easy to install, Connect-A-Dock is versatile—modules can be configured end to end or side to side, as long and wide as you wish, for many different applications or configurations on water or land.

- One person assembly
- Slip-together system takes just 5 minutes to connect each module to the next, using only a 9/16-inch (16 mm) socket wrench
- Quality construction throughout; rugged impact-resistant polyethylene; woodgrain, antiskid surface; environmentally friendly
- Resists UV rays, oil, gas, and salt
- Can be shallow- or deep-anchored
- Maintenance free
- Ideal for safe walkways over marshy ground, culverts, or irregular terrain
- Use as courtesy dock at lakes, rivers, etc.
- Ideal as VIP walkway at opening ceremonies
- Use around fish cages, hatcheries, or at fish-cleaning stations
- All components available for immediate shipping and installation
- 8 year warranty

Ease of installment made Connect-A-Dock modular floating dock systems a perfect fit for this walkway situation in Idaho Falls, Idaho which needs to be removed each year.

Boat Access

Fishing Dock with Boat Tie Up

Attach to Existing Dock

It's Easy and Fast to Install —

Floating modules are easy to connect to each other using 6 bolts in just 5 minutes, using only a 9/16-inch (16 mm) socket wrench. Great for park visitor's center lakefronts, nature enjoyment facilities, anywhere solid footing is needed.

Plan Your Own Installation With These Components

The total versatility of Connect-A-Dock means that even unskilled hands can assemble the modules into professional-looking results in no time at all. Let us help you with a more user-friendly, solid footing program for your facility.

 Boat tie-down

Gangway Hinge
 Connects gangway to float section

Swim Ladder
 Aluminum

Guard Rail
 For safety

Connect-A-Dock Inc. warrants to the original owner all polyethylene plastic components for eight (8) years from date of purchase to be free of defects in material and workmanship and to perform properly under normal usage and when fully assembled according to the instructions provided at the time of purchase. All other accessories have a one (1) year limited warranty. Warranty is only valid in U.S.A. and Canada. Should you have a warranty claim, we may require that you provide a photograph or, in some cases, return the Connect-A-Dock part to the place of purchase. In order for warranty to be valid, original sales receipt must accompany warranty claim. NOTE: Shipping costs are not included in warranty. *Fully Assembled: Install float connectors into all float section sockets where other float sections will be attached. NOTE: All plastic has an inherent tendency to create static electricity. If you have a concern, contact us at Connect-A-Dock. Connect-A-Dock reserves the right to make changes without prior notice.
