

**The best investment
for your waterfront**

OUR STORY

In 1991, two friends set out to create the ideal dock after years of battling harsh weather conditions and having to install and remove their wooden dock seasonally. The result—the patented EZ Dock® System. Today, we are the industry leader in floating modular docks, offering a wide selection of dock systems, boat and PWC lifts, and accessories.

EZ Dock is the best investment you will make for your waterfront property. Combining strength and stability with light weight and low maintenance, our patented designs have applications in commercial marine, residential, and industrial markets.

EZ Dock is the best investment you will ever make in your waterfront property.

We proudly manufacture all of our roto-molded product in the U.S.A.

Low Maintenance and Barefoot Friendly

- EZ Dock polyethylene docks are durable and slip resistant
- Won't splinter or rot, never needs painting
- Cleans easily with soap and water

Adaptable Design

- Unique design delivers outstanding load capacity, functionality, and safety
- Variety of dock sections, boat/PWC lifts, and kayak launches
- Easily customizable design to make your perfect waterfront retreat

Flexible Flotation Technology

- Flotation chambers constructed for optimal strength and structural integrity
- Designed to provide additional stability on the water
- Dock sections adapt easily to changing water conditions and levels

Innovative Coupling

- Made of recycled materials
- Nuts and bolts made of heavy duty, rust resistant composite
- Strength and durability even in the harshest weather conditions

STANDARD DOCK SECTIONS

Get the look and features that are right for you

Our floating, modular, composite dock sections can be formed into a wide variety of custom configurations to perfectly suit your shoreline and your lifestyle. EZ Dock offers features and benefits that no other dock can match: unbeatable adaptability, exceptional performance in rough water, superior strength and durability, virtually no upkeep, universal accessibility, and easy installation. From simple straight-dock designs to complex configurations featuring multiple ports and platforms, EZ Dock makes it easy to create just what your family needs.

	DOCK SECTIONS	SIZE (W x L x H)	AREA	WEIGHT	FLOTATION CAPACITY	PART #
1.	40" x 5' Dock	40" x 60" x 15" 1 m x 1.5 m x 38 cm	16 sq ft 1.5 m ²	88 lbs 39.9 kg	1,000 lbs 453.6 kg	204060

Weights and dimensions may vary because of the rotational molding process. Supplemental flotation available to increase capacity for specific applications.

LOW PROFILE DOCK

Ease of use. Stability. Low maintenance.

It's time to stop worrying about your footing and start focusing on your rowing skills. Introducing EZ Dock's new low profile dock. It's dramatically lower to the water, with a freeboard height less than half that of our standard dock. This allows you easy access to the water, whether you are getting in or getting out.

Our flotation technology is derived from our standard dock, which has proven over time to be extremely stable regardless of where you are positioned on the dock. And with virtually no maintenance in comparison to a conventional wooden dock, it's time to enjoy a dock designed for you.

FEATURES/BENEFITS:

- Incredible stability for sure footing while stepping on and off
- Meets FISA and US Rowing standards – perfect for your team's races
- Engineered for many applications: rowing, swimming, fishing, boating
- Modular design for easy installation, ability to attach to standard EZ Dock system or traditional docks

DOCK SECTIONS	SIZE (W x L x H)	AREA	WEIGHT	FLOTATION CAPACITY	PART #
80" Low Profile Dock	80" x 120" x 8" 2 m x 3 m x 20 cm	66.7 sq ft 6 m ²	260 lbs 118 kg	1,900 lbs 862 kg	158010

EZ PORT® MAX 2i DRIVE-ON LIFT

EZ Port revolutionized docking and launching with the original, drive-on PWC lift. Our patented industry-leading EZ Port Max 2i takes that innovation to the highest level. It features a split entry and self-adjusting rollers that make loading and unloading smooth and effortless. EZ Port Max 2i is the simplest and most durable drive-on, push-off method of dry docking. Whether you are an experienced operator or just getting started, boarding and launching is a breeze, and is ideal for any size or brand of PWCs.

FEATURES/BENEFITS:

- Adjustable rollers adapt to all PWC brands and hull designs for ease on and off of the port
- Three-sided accessibility to configure exactly to your needs
- Wide variety of anchoring options make it simple to accommodate to your waterfront

EZ BOATPORT® DRIVE-ON BOAT LIFTS

Keeping your boat high and dry has never been so easy. The EZ BoatPort is a simple and stable drive-on, drive-off method of docking for boats in a wide range of sizes up to 5,000 lbs.

Removable and changeable bunks can accommodate hull shapes from flat-bottoms to deep-Vs, making this the perfect choice for boats including skiffs, fishing boats, and jet boats. The EZ BoatPort is also available with side extensions for additional walkaround room and access to the sides of your boat for cleaning, maintenance, and covering.

FEATURES/BENEFITS:

- **Self-floating chambers that move with the changing water levels** – Makes porting much easier
- **Flexible** – Works with existing floating or fixed docks
- **Adaptable** – Can be used in as little as two feet of water
- **Easy to use** – No winching, cranking, or hoisting

Options

- Two skid bunk options to fit a variety of hull shapes and sizes
- Up to three additional keel rollers for longer boats
- Supplemental flotation kit for added buoyancy
- Optional side extensions for additional walkaround room
- Flip-up front cleat to secure the boat to the port

EZ BoatPort

KAYAK LAUNCHES

EZ Kayak Launch

With the EZ Dock EZ Kayak Launch, docking and launching your kayak or canoe has never been easier. The innovative new one-piece design, complete with built-in launch-assist paddle notches make this the smartest way to stay dry while entering and exiting your watercraft. And with the ability to connect with our standard and low profile dock sections (as well as any other traditional docks) the new EZ Kayak Launch can be installed virtually anywhere! Whether you are an experienced kayaker or just getting started, you will feel confident and stable using our new launch.

MODEL	SIZE (W x L x H)	WEIGHT	PART #
EZ Kayak Launch (patent pending)	58.5" x 168" x 25" 1.5 m x 4.3 m x .6 m	325 lbs (147 kg)	200900

Kayak Launch Accessories

You can add convenient accessories including a Handrail System that makes it easier to port stand up paddleboards, canoes, or two-person kayaks, and a Slide Bunk Kit that protects the bottom of some watercraft as well as the port itself. You can also add our Kayak Storage Straps to securely store your kayak right against the launch.

EZ Launch® – Commercial

Universal Accessibility

A first in the industry, the EZ Launch Accessible Transfer System for kayaks and canoes provides individuals with disabilities accessibility that exceeds the minimum requirements of the Americans with Disabilities Act (ADA). The easy-to-use transfer bench and transfer slide boards allow users to simply sit, slide over, and drop down, then use the side rails to pull off or back on. The customizable system is ideal for people of ALL abilities, providing extra stability launching and docking a kayak or canoe. **Contact your local dealer for more information.**

FEATURES/BENEFITS:

EZ Kayak Launch

- **Comfort** – Allows users a stable and dry entry to water
- **Ease of use** – Launch-assist paddle notches for support in kayak entry and exit
- **Flexibility in design** – Ability to connect to virtually any dock (EZ Dock, traditional wood docks, and more)

EZ Launch – Commercial

- Guide rails for easy access in and out of the water
- Launch rollers for easy movement of the watercraft
- Transfer bench with two heights for easy transfer from wheelchairs
- Transfer slide boards with two heights for differing watercraft sizes
- Perfect for high traffic, public use

ANCHORS

Once you've created your EZ Dock, you'll need to select an anchoring system to work with your existing piling or your new installation. Our wide variety of anchoring components can accommodate most water conditions and bottoms (deep, shallow, rough, muddy, or sandy) and are simple to install. EZ Dock anchoring products are made from long-lasting, durable materials that can accommodate standard or heavy-duty use. Your local dealer can help you select the anchoring system that's right for your location. Call us at 1-800-654-8168.

1. Pipe Augers

100255 or 100355

Nut and bolt auger for drilling and setting pipe in lakes, rivers, or ocean bottoms. Pipe sold separately.

2. Adapter Hinge

100750 or 100750SS

Reversible hinge for bolting EZ Port PWC lifts or EZ Dock sections to other types of floating docks. Set of two.

3. Stiff-Arm (Heavy-Duty)

800099

Anchor to shoreline abutment or shoreline post with our heavy-duty stiff-arm. Light-duty stiff-arm bracket also available.

4. Pipe Bracket (Heavy-Duty)

215250 or 215350

Heavy-duty polyethylene pipe bracket allows docks to adjust to changing water levels.

5. Pipe Bracket (Standard-Duty)

135250 or 135350

Standard-duty polyethylene bracket provides ample anchoring for EZ Port PWC lifts or for smaller docks in moderate conditions.

6. Pipe Stand-Off Bracket

1051000

Polyurethane bracket attaches top of pipe to stationary docks. Fits pipe from 2.5" to 3.5" O.D.

7. Deadweight Bracket (Heavy-Duty)

210350 with 100725P Insert

Add a deadweight insert to our heavy-duty polyethylene pipe bracket to anchor docks in deep water or over rocky bottoms.

8. Deadweight Winch Insert

210350 with 100730 Winch Insert

Deadweight insert and cable winch added to our polyethylene pipe bracket allow easy dock adjustment for water fluctuations. Cable sold separately.

9. Deadweight Bracket (Standard-Duty)

100740 or 100740SS

For light-duty anchoring with chain and/or to attach 4" x 4" railing or mooring posts. Chain sold separately. Set of two.

10. Deadweight Stiff Arm Combo Bracket

100700 or 800095-15

Combination bracket can be used with both EZ Dock's deadweight or stiff-arm anchoring system.

11. Adjustable Piling Bracket

300800

Heavy-duty polyethylene bracket allows lateral position adjustment to attach to piles up to 18" in diameter.

12. Piling Bracket and Hoop

100800 or 100812 (shown)

Mainframe piling bracket is pre-drilled for hoops from 4" to 24" wide. Includes connectors with nuts. Hoops sold separately.

GANGWAYS

Easy Access

Engineered with the same technology and quality as our dock sections, EZ Dock gangways offer uncompromised durability and modular versatility. Gangways are manufactured from aluminum, wood, or polyethylene.

1. Gangway (Aluminum)

G300308 to G300532

Features welded construction with an available ThruFlow™ decking walkway. Available in 3' and 5' widths and lengths from 8' to 32'.

2. Gangway (Polyethylene)

400406 (6' section)

Shown with two 6' sections installed with the 12' Aluminum Tube Support Kit (401412) and optional 12' Hand Rail (400912). Also available in 10' section (404010).

3. Gangway Roller Kit

300300, 300400

Gangway Roller Kit allows end of gangway to adjust to changing water levels. PVC and galvanized steel roller available for 3' and 5' widths.

4. Transition Plate

G200350 or G200550

Gangway transition plate with ThruFlow decking creates a sturdy transition between shore grade and aluminum gangway, or gangway to dock.

5. Hinge-To-Float

G200360, G200460, G200560

Hinged bracket with hardware attaches gangway to dock.

6. Transition Kit (Polyethylene)

100717 (15") or 100718 (30")

Hinged polyethylene plate creates a smooth transition between EZ Dock or EZ Port and another floating dock.

7. Gangplank Mounting Kit

100240, 100340 or 100600

Galvanized steel hinge bracket and hardware for wood walkways 24", 34", or 60" wide. Lumber not included.

8. Plank Gangway (Polyethylene)

200200

Hinged polyethylene panel creates a smooth transition between shore grade and deck surface.

EZ TRAIL®

EZ Trail is a smart way to create accessible ramps and pathways in your woodland, wetland, or any place you need a safe and durable traversing platform. Our system is less invasive, and the large interconnecting, modular sections are simple to install.

You can easily add sections as needed, or reconfigure your walkway anytime you like. EZ Trail features a versatile and expandable self-floating design that is suitable for land and water and can be easily moved (unlike fixed walkways, ramps, piers, or docks).

Environmentally Friendly

Treated wood and foam-filled products can be dangerous to wildlife habitats because they deteriorate, break apart and leave debris in the water, but EZ Dock utilizes only safe, non-toxic materials. The uniquely engineered sections provide stable flotation and can be suspended above vegetation during periods of low water so they don't harm the habitat. The system is less invasive because it doesn't require a permanent foundation, allowing healthy plant growth underneath.

PARKS & RECREATION

EZ Dock offers dock systems that provide children and adults of all ages easy, safe access, including ADA accessibility, to the activities they love. Our low maintenance systems are designed for customers with limited staff, time, and money to devote to constant dock maintenance. Parks and recreation departments across the country select the EZ Dock system because there's no wood to cause splinters, and the docks can be left out year-round — even on static ice.

MILITARY & LAW ENFORCEMENT

Whether your military or law enforcement department needs two slips or 2,000, a small dock or a complex marina with boat lifts, water and shore power, EZ Dock has dedicated and experienced distributors and dealers to help you navigate the process. We'll help you with new dock development or existing dock replacement.

UNIVERSAL ACCESSIBILITY

Many companies can boast about having products that conform to all minimum regulatory guidelines ensuring universal accessibility, but EZ Dock takes it much further. As a leader in the industry, our products are not engineered for the “bare minimum” requirements – we strive to design our products to give everyone access to the best possible experience on the water, far exceeding the minimum standards.

FLOATING PLATFORMS & ACCESS WALKWAYS

During on-water construction, EZ Dock platforms provide easy and safe access to the job site. With EZ Dock, you can custom-tailor a floating platform or access walkway to meet the specific requirements of your project. Each float has a working capacity of 62.5 lbs per square foot, giving each dock section a load capacity of up to 4,000 lbs.

EQUIPMENT BARGES & PLATFORMS

EZ Dock Industrial Floats can be used as a motorized barge to move equipment from shore using our EZ Dock Outboard Motor Brackets. They are ideal for use by diving contractors to gain access to difficult areas for over-water commercial use. The floats have low-freeboard stability, are easy to assemble and disassemble, and can carry a large amount of weight without compromising strength. They can easily attach to other platforms, and are chemical-resistant. The platforms also provide stable transporting in strong currents or windy conditions.

TEMPORARY INSTALLATION APPLICATIONS

Special waterfront events that require floating platforms can present unique challenges. EZ Dock can help you execute your event with docks and floating platforms to accommodate judges, officials, contestants, performers, spectators, press, and photographers. Our products are easy to install and dismantle, and are perfect for traveling and recurring events held in locations such as ski competitions, fishing tournaments, concerts, golf tournaments, triathlons, and in-water boat shows.

TEMPORARY INSTALLATION APPLICATIONS

ADD YOUR OWN SIGNATURE

With the EZ Dock modular system, you can add a wide variety of accessories including storage boxes, bumpers, cleats, benches, ladders, and slides using our easy-to-use coupling system. Do you have a specialty item or piece of equipment that you want affixed to your dock? Simply use our hardware connectors to bolt it directly to the section you choose. It's that easy.

RAILINGS

EZ Dock modular railings are safe, secure, and conform to all States Organization for Boating Access (SOBA) and Americans with Disabilities Act (ADA) guidelines. Railing sections are available in a variety of lengths and profiles designed to provide safety and security with minimal obstruction.

Just What You Want

We offer a wide variety of materials, colors, and configurations for your rails.

Dock sections are 15" high and displace just a few inches of water, resulting in approximately 12-3/4" of freeboard height showing above the water line.

Choose from powder-coated color finish, stainless steel, or aluminum.
